

To: State, County, and local government officials

RE: We the people, support the Arkansas River Corridor Access Plan (ARCAP) to develop recreational uses such as canoeing, kayaking, wildlife viewing, and fishing along the Arkansas River through Sedgwick County. We are disappointed in the recent action taken by Sedgwick County Commissioners on April 22, 2009 to direct the County Manager's staff to stop work on the ARCAP project for river access for areas north of 53<sup>rd</sup> Street. (5-0). This action is a serious impediment to implementation of the ARCAP and indicates a regression of Sedgwick County as a Project Partner in the ARCAP. We strongly recommend redirecting the County Manager's staff to restore work on the ARCAP north of 53<sup>rd</sup> street and throughout Sedgwick County. Finally, we pledge to be good stewards of the land and respect the property rights of those that own land along the Arkansas River.
